

## Front end Developer

A Pune-based **UI/Front-End Developer** passionate about creating **responsive** and engaging web interfaces. I specialize in **HTML**, **CSS**, and **JavaScript**, with a focus on building seamless user experiences.

I'm always **learning new technologies** to improve my craft. Outside of coding, I enjoy reading, photography, and running.

Knowledgeable in user interface, testing, and debugging processes. Bringing forth expertise in **Creative UI design**, **Event Handling**, DOM Manipulation and **Responsiveness** of website.

## Accomplishments

1. Create **to do list** web app
2. Create **Quiz** web app
3. Create **Movie Search** web app
